INTERNSHIP COMPLETION CERTIFICATE

This is to certify that **Mr. Anuj Singh**, a student of Thakur College of Engineering and Technology (TCET), has successfully completed his internship as a **Full-Stack AI Engineer** with Liferythem Healthcare Services Private Limited from **10 February 2026 to 30 June 2026**

During the internship, they worked on the design, development, and research of the company's core Android application, focusing on medical hardware integrations and cloud architecture. They were instrumental in developing the system's capability to interface directly with various medical diagnostic devices.

Key responsibilities and contributions included:

- **Medical Device Integration:** Successfully integrating vendor-provided SDKs into the Android application to enable seamless data collection for critical health metrics, including multi-lead ECG, BMI, blood sugar levels, and an AI-powered digital stethoscope.
- **Cloud Architecture & Storage:** Designing and implementing secure workflows to connect the Android application with AWS (Amazon Web services), ensuring the reliable storage of device-generated clinical files and patient vital data.
- **Biomedical Technical Research:** Conducting deep technical research into the underlying technologies, sensors, and algorithms of various medical devices to understand and verify the mechanisms driving their measurement accuracy.
- **Cross-Functional Execution:** Contributing heavily to both the frontend mobile experience and backend data pipelines, ensuring production-ready code, thorough system documentation, and reliable end-to-end performance.

Throughout the internship, Mr. Singh demonstrated strong technical proficiency, leadership skills, professionalism, and a commitment to delivering high-quality solutions. His performance and conduct throughout the internship were found to be satisfactory.

We appreciate his contributions to the organization and wish him success in his future academic and professional endeavors.
